The art of compilations

Kompilace pro Vaši inspiraci...

Každý produkt série Compila je navržen tak, aby vyhověl jak estetickým, tak technickým požadavkům.

Jednotlivé produktové skladby ukazují, jak snadné je kombinovat různé produkty ze série Compila mezi sebou, ale i s ostatními výrobky z nabídky RAKO. Série se vyznačuje svou všestranností, originalitou a hravostí, což se odráží ve škále barev, formátů a povrchů.

V jednotlivých kompilacích je každý produkt představen s konkrétním typem povrchu, od vysokého lesku až po úplný mat. Pro vyšší názornost jsou tyto rozdíly zobrazeny pomocí modelů koulí. U vertikálně orientované police jsou prezentovány prvky určené na stěny, zatímco příčky ležící vodorovně představují dlaždicové produkty na podlahu. Díky těmto vizualizacím je snadné si lépe představit, jak bude vypadat finální vzhled po instalaci vybraných výrobků v prostoru.

Compilation for Your Inspiration...

The Compila series is designed to meet both aesthetics and technical requirements.

The following pages showcase individual product compositions, illustrating the possible combinations of different elements from the Compila series as well as other products within the RAKO range.

Defined by its versatility, originality and creativity, the series presents a diverse range of colors, formats, and surfaces. From high gloss to full matt, each product is presented with a specific surface type, clarified through sphere models for better visualization.

The vertically oriented shelf displays elements designed for walls, while the horizontally positioned partitions represent floor tile products. These visualizations provide a clear understanding of the final look that can be achieved once the selected products are installed in a space.
